Internship Topics:

Welcome, students! We're excited to share details about your capstone project. This project is an exciting opportunity for you to collaborate, innovate, and learn. Let's dive in and make this project a success!

This is the list of topics:

1. Seismic Event Prediction.
2. Air Quality Index Prediction
3. Forest Fire Prediction.
4. IPL Data Analysis.
5. Weather Forecasting.

Based on the topics above, all of you have to select one topic out of these and get the dataset from Google and make sure that the datasets chosen by all of you are different.
